

Mentoring Testimonials

Let me start by saying that I had an incredible experience sitting in on your session today. It was as exciting as it was educative and informative. I did soak in as much as I could from your class. Many thanks for taking time to being as expository and painstaking in your lecture as you were today.

David Agboje

I really enjoy your presentation (this week's as well as the last one), and learned a lot from that. According to what you said in the presentation, I edited and completed my online profile then made it more attractive. Just as you expect, I want to be successful.

Bruce Wang

As a multicultural Marketing/PR Professional, I attended Murali's training twice. I have a very strong feeling this experience has changed my career life. He has such sharp eyes which can find the best of the best for everything and everyone. His presentation was very interesting. He used many vivid examples to help us understand the concept of personal branding. His recommendations are priceless which helped me in many aspects! I do appreciate the great opportunity of meeting a like-minded professional like him. Everyone would be lucky to attend his training!!!

Anna Dan Zuo

Dear Murali, To be honest i was really impressed by your last class at TDSB. You came that day in the class with the aim to polish our abilities and make us identifiable and you did it. Thank you for delivering such a wonderful lecture.

Muhammad Afzal

Thank You - great training, to encourage me to move ahead.....
